1908 SEED CATALOGUE 1908

S. D. Woodruff & Sons

ORANGE, CONN.

82 and 84 Dey Street, New York City.

Please order from nearest point either New York or Orange.

TO OUR CUSTOMERS

In introducing ourselves for 1908 we wish to say briefly that we were never in better position with a full line of Seeds to serve our customers. Some few items owing to the unusual or "freak" season of 1907 are in rather short supply, but on the whole our seeds were never so carefully grown and selected as those now offered in this catalogue. Our facilities enable us to make prompt shipments either from Orange, Conn., or New York City. Our seed potatoes all grown in the cold North of Maine are unusually fine and moderate in price. Our seeds of all kinds are grown in whatever part of the world is best adapted to the highest development, and a very large part under our own personal supervision.

We are lifelong seed growers. Our seed farms at Orange, Ct., where the members of our firm live are open to the inspection of our customers and friends. You are always welcome to visit us either at our New York Store, 82 and 84 Dey Street, N. Y., or at our farms at Orange, New Haven County, Conn.

HOW TO SEND MONEY.

We will receive postage stamps, if received in good condition, same as cash. Remit by P. O. or Express Money Order or Registered Letter.

POSTAGE.

Seeds will be mailed postpaid in quantities of $\frac{1}{4}$ lb. and less. Quantities of $\frac{1}{2}$ lb. and over will require postage at the rate of 8 cents per lb. in addition to catalogue prices. Peas and beans require 15 cents per quart; and corn 10 cents per quart in addition to catalogue prices.

WE PAY THE FREIGHT.

On orders to the amount of \$7.00 or over, at catalogue prices, where cash accompanies orders, we will deliver goods to your nearest station, charges prepaid. Excepting we cannot pay freight on potatoes, onion sets, grass seeds or field corns.

DISCOUNTS.

Market gardeners who purchase ten, twenty or more dollars' worth of seeds naturally expect a lower price than those who purchase but a small amount, and we will make the following discounts from catalogue prices, where cash accompanies order; on seeds in packets and by the ounce, we will mail, postpaid, for one dollar, seeds to the amount of one dollar and twenty-five cents. On orders amounting to ten dollars and upwards, deduct 5 per cent., where cash is sent with order, except on potatoes, onion sets and grass seeds.

SUGGESTIONS ABOUT BEANS.

Bountiful is earlier and better in every way than six weeks.

Our **Dwarf Horticultural** is the finest bright colored pod, pure and nearly stringless.

Golden Eye Wax and **Hodson Wax** in our trials are absolutely rustless.

Our strains of **Wardwell's** and **Davis Kidney Wax** are the finest obtainable.

In comparing prices note that we deliver seeds to your station without extra charge, provided you order amounts to \$7.00 or over, where cash accompanies order. Also on \$10 order we allow 5% cash discount.

LIMA BEANS.

Dreer's Improved Pole or Challenger Lima.

We are headquarters for Lima Beans and can supply in any quantity up to hundreds of bushels of a variety. Woodruff's Lima Beans always grow and are true to name. The potato or thick round fat seeded varieties, both Pole and Bush, are rapidly taking the front as profitable sorts. We call particular attention to our very superior stocks of Lima Beans. Some of our new customers last year thought our prices on Lima Beans were too low for choice samples. We wish to assure all that our stocks are not only "just as good" but better than many stocks on the market. Crop of Lima Bean seed unusually short this year.

J. M. B.

With the exception of Danish Ball Head and Early Winningstadt *all* our cabbage seed is Long Island grown, and from the choicest strains. Such seeds cost 2 or 3 times as much to produce as the imported seed, but our former customers keenly appreciate our high-grade cabbage seed.

Volga Cabbage is the best cabbage I ever raised, heads good size and hard, no waste and fine flavor. I planted the seeds where I wish the plants to grow.

CARROTS.

Flushing, L. I.,
Dec. 16.

S. D. Woodruff & Sons,
Gentlemen:—I wish you to book me for thirty lbs. of your Half Long Danvers Carrots, same as I had last year. I bought of three other leading seedsmen last year but your seed grew the best crop of carrots. All the different lots of seed were sowed side by side, and given equal chance, but in every case your seed grew the finest crop.

Very truly yours,
H. D. LOTT.

Chantenay, one of the best for bunching.

Improved Long Orange.

What Mr. Lott says of our carrot seed is only a sample of the many testimonials we receive from our carrot seed customers. If you are looking for cheap seeds you certainly will not come to us, but if you want the very best that money can buy we can supply you with the true stock.

VARIETIES OF CARROTS.

I will say here your seed have given entire satisfaction and I shall order more of you next spring.

GEO. E GEER, Jewett City, Conn.

CAULIFLOWER.

Our Cauliflower is all grown in Denmark and is *proven seed*, that is one year old and that has been tested and has produced a good crop.

Our stock of Early Snowball Cauliflower is one of the finest ever put out, equal in every way to the originator's stock.

Henderson's Early Snowball. Very largely grown for an early crop. it is dwarf and a sure header; heads are large, white and solid. Pure stock. Pkt., 15c; oz., \$2.50; lb., \$28.00.

Extra Early Dwarf Erfurt. One of the earliest varieties. Pkt., 15c; oz., \$2.50; lb., \$20.00.

LeNormand's Short Stem Mammoth. A large stumped variety, and a standard for general cultivation. Pkt., 10c; oz., 60c; lb., \$7.00.

Veitch's Autumn Giant. Standard sure heading sort. Price per pkt., 10c; oz., 60c; lb., \$7.00.

John L. Moore, Lowell, Mass., writes under the date of November 15th, I recommend your Snowball Cauliflower above any I have ever used, and I have tried seed from all the best seed men.

This means something as Mr. Moore is a very careful and experienced grower whose market that of Boston is most critical.

CELERY.

White Plume.

No items in the entire list of seeds are more critical to the average planter than Paris Golden and White Plume Celery and Snowball Cauliflower. Our stocks of all three are simply perfect—no pithy celery and no disappointments in our stocks of these.

Paris Golden Self-Blanching.

Highwood, Ct., Dec. 15.

Your Snowball Cauliflower is the finest ever. About every plant made a fine head. L. O. JONES.

CELERY—continued.**PARIS GOLDEN OR GOLDEN SELF-BLANCHING CELERY.**

Most important and largely used is this sort on account of its fine quality, golden yellow foliage and readiness in bleaching. No one item except Cauliflower and Cabbage depends so vitally on the seed. Our seed of this sort is French grown only. Seed grown elsewhere can be purchased at less than one-third the price. Insist on the French grown article of this variety wherever you purchase. Vitality of our seed is good this year, and we hope we have ample supply for our largely growing trade. Pkt., 10c; oz., 50c; $\frac{1}{4}$ lb., \$1.25; lb., \$4.50; five lbs. at \$4.00 lb.

Woodruff's Beauty, one of the finest green celerys. Our crop of seed almost a failure and we have but very few pounds this year. Pkt., 10c; oz., 40c; $\frac{1}{4}$ lb., \$1.25.

SWEET CORN.

In an experience of over forty years as growers of choice Sweet Corn Seed, we have never known so unfavorable a season as that of 1907 for producing good seed. However, by using special care and taking extra pains we have saved some good seed, enough we hope to supply our many customers who annually look to us for a supply. Beware of cheap prices for Sweet Corn Seed for 1908.

Long Island Beauty. We put out this new main crop sort two years ago. It is a large eared medium to late sort, ears about size of late Mammoth, of the finest quality. It remains in edible state longer than any variety we have ever seen. Pkt., 10c; qt., 25c; pk., \$1.50; bu., \$5.00; per 100 selected ears \$6.00.

Country Gentleman. This well known superior sort needs no description. Originated by us in 1892, it has become a standard for quality and productiveness. Our constant selection makes our stock unsurpassed. Pkt., 10c; qt., 25c; pk., \$1.75; bu., \$6.00; per 100 selected ears, \$5.00.

Saunders. Introduced by us last year for the first time. A new extra early Sweet Corn, which we have named "Saunders," after the man of this name near Albany, N. Y., who has for the past five years had a bonanza on the early sweet corn market in his entire section. It is a hybrid extra early, part red and part white cob with an ear 40 per cent. larger than Red Cory, full as early and wonderfully sweeter and more prolific. Pkt., 10c; qt., 25c; pk., \$1.75; bu., \$5.00; selected ears, 5c each.

Bristol, Ct., Oct. 11, '06.

I wish to say to you that your Long Island Beauty Corn takes the cake. It beats anything about here; very large ears and sweet. I wish to be sure of 100 nice ears later for next season. I shall want a couple of nice ears to show others.

Metropolitan Sweet Corn seed purchased from you was number one, every seed grew.

IRVING R. GRAVES, Northampton, Mass.

The seeds I have purchased from you this season have given entire satisfaction. In fact are the best I ever bought, and I have bought from the best firms for several years.

P. F. STILLINGS, London, Ky.

Bear in mind that we are extensive dealers in Corn of all kinds and will be glad to quote special prices on large lots.

SWEET FODDER CORN.

We can offer a choice lot of Sweet Corn, all large growing varieties, and those who buy a quantity for ensilage generally prefer the Sweet Corn to a field variety. Price per bu. \$1.25; 5 bu. or more at \$1.15 per bu. You will find this a nice sample and the price is very low.

WHITE RICE POP CORN.

The best sort for popping. Pt., 10c; qt., 15c; pk., 70c; per lb. on ear, 5c.

I will buy more from you this coming season. What seeds I had from you last year was good.

HERBERT E. SNELL, Rockland, Mass.

Remember we pay freight on cash orders amounting to \$7.50 or over. Also note our discounts on page 1.

CUCUMBERS.

The New Davis Perfect Cucumber.

The sum and substance of the claims made for the New Davis Perfect Cucumber are that by using this variety gardeners can produce out of doors cucumbers that will sell in the market for hot-house forcing varieties. As is well known these always bring fancy prices.

Our supply of this seed is very limited. We have seen them personally and see no reason why this sort will not be a most profitable one as it is early as White Spine, very dark green, great yielder and beautiful size and shape. Pkt., 10c; oz., 25c; ¼ lb., 65c; lb., \$2.00.

LETTUCE.

Culture. Lettuce, the most useful of all salads, is easy of culture, being free from all diseases and insects. It requires rich, moist soil, clean cultivation and plenty of water. This will give the quick growth on which depends its appearance, tenderness and flavor. For early Spring use, sow in a seed bed in September or October, and protect through the Winter with cold frames. (*Add 8 cents per lb. if sent by mail.*)

ONIONS. OUR GREATEST SPECIALTY. The finest crop of onion seed ever grown in Connecticut was harvested in 1907. When it comes to onion seed we feel that we have a right to unusual claims on account of the extra quality of our home grown onion seed. We could publish dozens of the strongest kinds of compliments that we receive annually from users of **S. D. WOODRUFF & SONS PEDIGREE ONION SEED.**

Your onion seed was all right,
and best I have ever used.

F. B. Estabrook,
East Northfield, Mass.

Connecticut is the home of the famous Southport Globe Onions. Our strains of Southport, Red, White and Yellow Globe varieties are unsurpassed. Send to headquarters for pedigree stock.

Southport Red Globe.

I am well satisfied with the onion seed I bought of you.

GEO. GEER, Baltic, Conn.

Franklin Co., Mass., Dec. 4.

Our dealings with your firm have been very satisfactory. Consider your seeds are reliable as any in the market and shall continue to use them.

W. L. HUBBARD.

Noble Co., Indiana, Sept. 2.

Yours of Aug. 31st received and noted. Your terms are quite satisfactory and we accept them. Book order for 1000 lbs. onion seed now and we shall probably wish to increase this order later. The finest onions in this locality were grown from your seed this season; all three varieties, Red, White and Yellow Globes.

G.

Onion growers will do well to buy their seed direct from the growers of the seed. Our seed is all thoroughly tested and will please you as it does hundreds of other critical growers in the country.

SOUTHPORT GLOBE ONIONS.

This is the home of the Southport Globe Onions, Red, White and Yellow. Our stocks are simply perfect. The Red, a very dark blood red, no pale red onions in our stock; the White, a pure snow white, and the yellow, a deep orange yellow. Supply of seed very limited.

PEDIGREE ONION SEED.

We feel justified in claiming for our seed all that can be said about any seed, viz, that it is as GOOD AS CAN POSSIBLY BE PRODUCED. Now the reasons for this claim are these: we grow our onion seed from selected bulbs on our own seed farms. We carefully harvest and cure the seed. We offer it to you direct. The price is as low as we can produce the very best seed. ONCE A TRIAL ORDER ALWAYS A CUSTOMER has always been our motto regarding onion seed.

ONION SEED FOR 1908

For the past two years Onion Seed Crops have been short but the crop of 1907 was the best we have harvested for years, and the quality of this year's onion seed will be extra fine. Considering the fine quality seed we offer our prices are very reasonable. Order early before supply is exhausted.

WE GROW ONION SEED BY THE TON

WE GROW ON OUR OWN SEED FARMS HERE AT ORANGE, CONN., thousands of pounds of onion seed annually. We do not claim to grow all of the onion seed we sell, for some varieties are grown in other sections of the world better adapted for their particular types, but growing as we do a very large part of our seed, we have a right to claim that it is superior to much of the "cheap" seed on the market.

ONION SEED FOR GROWING ONION SETS.

Extra Early Red Flat and Red Wethersfield at \$1.40.

Yellow Flat Danvers and Yellow Strasburg at \$1.40.

White Silverskin, White Portugal and White Queen at \$1.75.

No. Bennington, Vt., Dec. 14, 1907.

Your Onion Seed produced a large crop of No. 1 Onions, 1515 bushels on 2 acres, most of which we sold at 80c to \$1.00 per bushel, some onions 8 or 9 inches in diameter.

G. M. FARNSWORTH.

SOUTHPORT WHITE GLOBE ONION.

True seed of this onion can only be produced from carefully selected bulbs. Seed from such bulbs is not plentiful this year, but our customers will, if they order early while our stock lasts, obtain seed from pure white globe shaped onions. We challenge comparison with any one on our seed of this variety. Price per pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 90c; lb., \$3.40.

One of the expert onion growers in the Southport, Conn., section, wrote under date of Sept. 25, the following:

"The Southport White Globe Onion seed I purchased of you last spring proved satisfactory in every respect. The onions grown from it are as good shape as those grown from my own seed, and the vitality of your seed was much better than my own seed."

Our prices are low considering quality of our seed. Give us a trial; we can serve you whether you use 1 ounce or 500 pounds. We have many planters among our customers who purchase annually from 50 to 200 pounds each.

Our trade on onion seed among the planters of America has increased over 50 per cent. each year for the past four years. The only reason we know for the increase is the fact that our seed has given universal satisfaction and good seeds have made for us many good friends.

The Early Cracker Onion.

ONION SETS.

Choice Philadelphia Grown Sets. We Are Headquarters for the East.

No crop the farmer puts in the ground is surer to return a profitable crop than a crop of onion sets. If you set good sound sets and give them good soil and good culture, a fairly good crop is assured.

Markets for past two or three years have been good, and in almost every case crop has been a money-maker.

Important Notice!

Change in Standard of Weight per Bushel of Onion Sets. We have been selling a measured bushel of onion sets heretofore, but owing to the fact that nearly all dealers have now adopted the 32 pound bushel we have adopted the same standard. We shall henceforth ship 32 pounds for a bushel at all times. You will be sure of getting full weight, but 32 pounds actually measures but a trifle over 3 pecks.

YOU WILL FIND OUR ONION SETS OF VERY CHOICE QUALITY.

Prices are net and subject to advance, and in all probability will be much higher. Order early.

IMPORTANT—We Fill All Accepted Orders.

We can supply sets in any quantity from a pint to a carload of each variety, and have them now in storage both at Orange and New York.

Several of our customers reported yields of 500 to 650 bu. per acre from onion sets we supplied them in 1907.

We grew on our farms last season a crop of onions from onion sets that yielded 640 bushels per acre.

Onion Sets.

Two of the Tools Every Onion Grower Should Own.

Universal Onion Drill.

that it is considered the very best drill in use. It sows with great accuracy two rows at a time, 12 or 14 inches apart. Net price, \$7.00.

Meeker Smoothing Harrow.

No one who raises one acre or more of onions can afford to be without this tool. It does away entirely with hand-raking the soil. Upon our own farms we would not be without one for three times its cost. Price \$20.50 or 5 per cent. discount for spot cash.

This is the drill used almost exclusively by onion growers in the Southport, Conn., section, and it is needless to say

I have tried the seeds of almost all the prominent dealers and find that yours do well for me every time, and I recommend others to take yours.

H. F., Plymouth, Conn.

Your seeds gave satisfaction the past season.

J. L. BURKE, Syosset, L. I.

PARSLEY.

One of the finest plants for garnishing; used for flavoring soups, stews and salads. Sow as early as possible in Spring in shallow drills fifteen inches apart, raking the soil fine and level on top. Cover the seed one-third of an inch. The plants appear in from two to six weeks. Succeed in common garden soil.

Champion Moss Curled. The standard market sort. Our stock of this is extra double curled and one of the finest stocks to be had. Used very extensively on Long Island. Price per pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 65c; 5 lbs. at 60c per lb.

Fern Leaf. Very fine crimped leaves. Price per pkt., 5c; oz., 10c; $\frac{1}{4}$ lb. 25c; lb., 75c.

Plain Leaf. A very hardy variety. Price per pkt., 5c; oz. 10c; $\frac{1}{4}$ lb 25c; lb., 75c.

Hamburg or Turnip Rooted. As the name implies, the root is the edible portion used for soups. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 65c.

Peas—Gradus or Prosperity.

PEAS.

Note our prices on Gradus and Thos. Laxton Peas lower than ever before offered, and our stocks are very superior and fine samples. Try the new pea Ameer; it is a winner.

Gradus. One of the greatest vegetable novelties introduced during recent years.

Our stock of Gradus Peas is the finest both in sample and purity of stock of any strain we have ever seen—Note very low price. Price per pkt., 10c; qt., 30c; pk., \$1.70; bu., \$5.00.

Thos. Laxton Pea. The growth of this sort is similar to Gradus; pods a trifle darker green, square at the end. Matures two or three days later than Gradus. Price per pkt., 10c; qt., 30c; pk., \$1.50; bu., \$5.00.

NEW PEA, AMEER.

A new pea from England, described by the introducers as follows: "A large podded extra early sort, resembling Alaska. In general appearance the peas and pod, however, are nearly twice as large as Alaska, matures three days later than Alaska."

We have received numerous words of praise for Ameer and strongly recommend it. A very hardy sort; will stand planting much earlier than most other sorts. Per pkt., 10c; qt., 30c; peck, \$1.60; bu., \$5.50; 10 bushels \$50.00 cash, no discount.

BOUNTIFUL.

Another new pea from England, a large green round seeded second early with large well filled pods, said to be large podded and an improvement on Ameer. Pkt., 10c; qt., 30c; peck, \$1.70; bu., \$6.00.

PRINCE EDWARD PEAS.

A brand new large wrinkled sort that we believe will produce the largest best filled pods of any pea in existence. Growth of vine, about 3 to 4 feet; foliage, light green, similar to Telephone; but pods absolutely pure and uniformly of immense size and very *dark green*. So much trouble has occurred and so many truckers have been disappointed with impure and small podded stocks of Telephone, that we feel in recommending this new sort, we shall make many new friends.

Where a strictly pure large podded heavy yielding sort of splendid quality is wanted, this will be sure to prove most profitable. Pkt., 10c; qt., 30c; peck, \$1.75; bu., \$6.50.

ALDERMAN PEA.

A main crop large podded sort, getting quite popular in some sections. Pkt., 10c; qt., 25; peck, \$1.50; bu., \$5.50.

Never before have we been able to offer so fine and thoroughbred a stock of Seed Peas as at present. We have exerted every effort in the careful "rogueing" in the field especially of the large podded sorts so that our stocks are purer than ever.

We call particular attention to Sutton's Excelsior, Ameer, Gradus, Alderman, Telephone, Long Island Mammoth and Prince Edward. (Add 15 cents per qt. if sent by mail.)

PEPPERS.

Packet of each variety, 5c; 10 packets for .40c, postpaid.

New Neapolitan. The earliest by 10 days of the large peppers, very mild flavor and immensely productive. Peppers grow upright on the plant. Per oz., 30c; $\frac{1}{4}$ lb., \$1.00; lb., \$3.00.

Chinese Giant. A pepper of immense size but greatly overated in most catalogues. Our trials has shown it a very shy yielder, and we cannot recommend it as having particular points of merit. Oz., 30c; $\frac{1}{4}$ lb., \$1.15; lb., \$3.50.

Bull Nose. A standard heavy yielding, hot flavored sort. Oz., 25c; $\frac{1}{4}$ lb., 75c; lb., \$2.50.

Sweet Mountain. Grows to large size; shaped somewhat like the Bell, but much larger; much used for pickling. The standard market variety. Per oz., 25c; $\frac{1}{4}$ lb., 75c; lb., \$2.50.

Ruby King. Standard market variety, very large fruit and enormous yielder. Oz., 25c; $\frac{1}{4}$ lb., 75c; lb., \$2.50.

Large Squash. Per oz., 25c; $\frac{1}{4}$ lb., 75c; lb., \$2.50.

Cherry Red. A small round variety. Per oz., 25c.

Small Chili. Best variety for pepper sauce. Per oz., 25c.

Long Red Cayenne. Fruit bright coral red. Per oz., 25c.

N. B.—Growers of peppers will do well to try our strain of Sweet Mountain.

POTATOES.

Each year we try to impress upon our customers the importance of obtaining pure Seed Potatoes, and each year we spend time and money without stint to improve our stocks of Seed Potatoes. We feel doubly paid for our time and money thus spent the past season, because never before have we received so many letters of praise for our seed supplied last Spring, nor have we ever before at this date had so many future orders booked as at present.

HOW WE HANDLE OUR SEED POTATOES.

First. We use great care in selecting our seed stock.

Second. We place this seed in the hands of careful experienced growers who grow the entire product for us in Aroostook County, Maine, the home of the seed potato.

Third. We personally inspect the growing crops in the field and dig out any impure or off-type specimens which may have appeared.

Fourth. We receive the seed potatoes from the growers and store them in bins especially constructed to carry them through the winter without danger of frost or heating.

Fifth. We ship them in heater cars from the cold north to our warehouses at New York and Orange, or if your order amounts to a carload, we will ship direct to you and make you a special price besides for so large an order.

Remember we can supply any quantity Seed Potatoes wanted. It is not at all uncommon for us to deliver 4 to 6 carloads per day from our various distributing points during the busy spring season.

This year more than ever we anticipate an unusually heavy demand for the "best seed potatoes that grow." We have tried to plan to meet the largely increasing demand by erecting two new large store-houses at our growing points in Maine, which together with our newly leased large warehouse at Queens, Long Island, and our ample facilities both at New York City and Orange will enable us to care for all wants in the best possible manner.

VARIETIES OF SEED POTATOES.

Ensign Bagley. We head the list with this most popular sort. Introduced by us in 1899, this potato is now more sought after than any other early sort wherever it has been tried. So great has been the demand for this sort that we last year planted one hundred acres, and the entire product of this crop will be sold by us to market gardeners for seed in this country, in Canada and in England, during the coming planting season. Prices, lb., 15c; pk., 50c; bu., \$1.60; barrel sack, 165 lbs., \$3.75

Many dealers for the past few years have sold substitutes for this potato as true Ensign Bagley. Buy you seed direct from the originator and insure pure seed.

IRISH COBBLER POTATO.

The wonderful popularity of this potato is due to its white color, round shape, immense productiveness, superior quality. Can anything more be added to make a perfect potato.

Take warning. Place your order for Irish Cobblers before it is too late to secure the pure stock. Price, pk., 50c; bu., \$1.50; bbl. sack, 165 lbs., \$3.50

We have already at this writing, Dec. 5, 1907, advance orders booked for several carloads each Irish Cobbler and Ensign Bagley, and have already exported to England quantities of Ensign Bagley.

IMPORTANT.

We are glad to quote special prices on large lots of seed potatoes. Frequently we are able to make a close price on a carload of potatoes to go to one section. Shall be glad to have our customers write us for prices.

ENSIGN BAGLEY POTATO.

120 Barrels per acre.

WHAT SOME FEW OF OUR CUSTOMERS SAY OF ENSIGN BAGLEY POTATOES

The Ensign Bagley Potatoes I bought of you last spring gave good satisfaction, all you claim for them and more, both in yield and quality; have always found your seeds reliable.

S. G. YOUNG, Voluntown, Conn.

I will say your Ensign Bagley potato was fine, the best I have ever had, and Admiral Foote are fine also.

W. M. EMERSON, Concord, N. H.

The Bagley potatoes have been fine. None are earlier around here.

A. H. JOURDAN, Grafton, Mass.

I am very well satisfied with your seeds. Shall buy more extensively next year. I think very high of your Bagley and Foote potatoes.

J. F. CROWELL.

S. D. Woodruff & Sons,

England, Nov. 1.

82 Dey Street, New York.

Gentlemen: Notwithstanding the unusual interest taken in varieties of seed potatoes throughout Great Britain during the past two or three years, and the extreme prices paid for new varieties, we have to say that the Ensign Bagley we have received from you for past two years has taken a deserving place at the top as one of the heavy yielding pure white sorts of splendid quality, the quality being a particular point in this country.

C.

ADMIRAL FOOTE POTATO.

Admiral Foote Potato is a very desirable second early sort, color of Hebron, shape of Belle Rose. Very prolific and of superior quality. Price, lb., postpaid, 15c; pk., 50c; bu., \$1.60; bbl. sack, 165 lbs., \$3.75

Following general list of pure Maine seed potatoes we offer F. O. B. at nearest point, viz., New York City, Queens, Long Island, Orange, Conn., or at growing point Aroostook County, Maine. All Canadian shipments are shipped from growing point Maine.

Tennessee Sweet Potato. Medium size, pear shaped. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 60c.

King of the Mammoth or Genuine Mammoth. This is the largest of all pumpkins, growing to an immense size, three feet or more in diameter, and weighing from 100 to 200 or more pounds. Pkts., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c.

Small Sugar. A very prolific golden colored sort, averaging about 10 inches in diameter. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 15c; lb., 50c.

All of my seeds gave good results; the parsnip seed was very fine; corn very good.

J. R. C., Wallingford, Conn.

Last Spring I bought of you one packet Mammoth Pumpkin seed and it was very late when I planted them. From ONE VINE I got five pumpkins that weighed as follows: 37, 53, 55, 61, 84, total weight from the one vine of 290 lbs. No special care or fertilizer. Three of the largest are now in my cellar.

F. H. KING, Barkhemsted, Ct., Nov. 21.

RADISH.

No vegetable can be produced with as little care as the radish. Started in the house in small boxes or in a small hotbed they are soon ready for use. They may be sown in open ground very early in the spring.

SALSIFY OR OYSTER PLANT.

Sandwich Island Mammoth Salsify.

Mammoth Sandwich Island. This variety originated in the Sandwich Islands; of enormous size, more than double the size of the ordinary kind. Roots grow long, large, smooth and white, and of exceedingly tender quality. Price per pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

SPINACH.

We are headquarters on Spinach Seed, and supply annually the most critical of customers. Buying as we do in such large quantities we are enabled to sell at corresponding low figures

Norfolk Savoy Leaved.

We offer the following standard varieties, all of very best stocks, at the following uniform prices: Per oz., 5c; $\frac{1}{4}$ lb., 10c; lb., 30c; 10 lb. lots at 20c; 50 lb. lots and over at 14c lb. (Add 8 cents per lb. if sent by mail.)

All following best imported stock.

Round Thick Leaf. One of the very best for early Spring and Fall sowing.

Norfolk Savoy=Leaved. (Bloomsdale). Curled and wrinkled like the savoy cabbage. (Imported seed).

Giant or Monstrous Viroflay. Leaves very large.

Long Standing. Does not run to seed as quickly as some of the other varieties.

New Victoria. A new, very long standing sort.

New Zealand. For summer use. Oz., 10c; $\frac{1}{4}$ lb., 25c; lb. 60c.

American Grown Bloomsdale Savoy.

To supply the demand for new crop spinach seed for sowing same year seed is grown, we have this variety grown in America as well as abroad. We offer the new crop seed ready for shipment Aug. 15 to 20, lb., 25c; 10 lbs., at 20c; 100 lbs. at 18c.

Yankee ingenuity has led some to utilize the tall sunflower stalks for bean poles. Excellent also for parrot food. **Mammoth Russian or Large Grey Seeded.** Price per pkt., 5c; qt., 15c; pk., 60c; bu., \$2.00.

TOMATOES.

Burpee's Earliest Pink. A new pink fruited sort said to be in every way similar to the celebrated Sparks Earliana, except in color, which is a handsome deep pink resembling Dwarf Champion and Acme in color. The fact that most early markets prefer a pink to a red fruited sort together with its great yielding qualities and extra earliness should give this a prominent place.

Packet, 10c; ounce, 60c; $\frac{1}{4}$ pound, \$1.25; pound, \$4.00.

June Pink. A new extra early pink colored sort, introduced by a Philadelphia house last season and said to have gained a great reputation for extra earliness, yield and smooth, handsome fruits. Pkt., 10c; oz., 60c; $\frac{1}{4}$ lb., \$1.25; lb., \$4.00.

Earlibell Tomato when known will surpass in popularity and demand the Earliana. It is an extra early sort the fruits of which are larger and smoother than Earliana and a marked advantage over that popular sort is that it will continue bearing much longer. Pkt., 10c; oz., 50c; $\frac{1}{4}$ lb., \$1.50; lb., \$5.50.

Montowese, Ct., Aug. 2nd, 1906.

I have been picking Earlibell tomatoes since July 15th and getting \$1.75 and \$2.00 per half bushel basket; they beat Earliana or any other early sort I have tried.

SWEET, POT AND MEDICINAL HERBS.

Every garden should have its complement of Sweet Herbs. We can all appreciate their utility, both for summer flavoring and their opportune use medicinally. Their culture is so easy that none ought to be without them. Sow the seed in pan or seed bed in early spring, transplant as soon as weather will permit. Cut them when not quite in

full bloom and hang in shady places to dry. Pack away in box entirely excluded from the air.

JOHN J. WAGNER, JR.

Seymour, Ct., Nov. 25.

From 1 acre and 3 rods of ground sowed with your Long Island Ruta Baga turnip seed in drills, I harvested 1,200 bu. turnips. The only fertilizer I used was ½ ton Woodruff's Home Mixture that cost me \$14.00. Not a forkful of stable manure. This is what I call a satisfactory crop. I sold all but 100 bu. of them at 50c per bu. Those I fed out as they were too large for market.

JAPANESE BARNYARD MILLET.

(*Panicum Crus Galli.*)

This wonderful and valuable new forage plant was introduced in this country by Professor Brooks of the Massachusetts Agricultural Experiment Station. It has proven an enormous yielder in all sections of the United States where tried—hay and fodder of the most excellent quality growing on any soil, yielding 12 to 20 tons per acre, and growing 5 to 8 feet in height. Cattle and horses eat it greedily. Sow in May and June broadcast, 10 to 12 pounds per acre, or in drills, 8 lbs. per acre. Prices, lb., 15c; (by mail, postpaid, lb., 25c;) 10 lbs., \$1.20; bu. of 32 lbs., \$2.20 by freight or express.

LAWN GRASS MIXTURE.

Our Lawn Mixture is composed of the finest re-cleaned grass seeds (not of the cheap, light chaff, weighing but 15 lbs. per measured bushel as put up by most seedmen.) Our Lawn Grass Seed weighs about 20 lbs. per measured bushel.

THE QUANTITY REQUIRED.

The quantity required for making new lawns is 4 bushels per acre, or for renovating old lawns, 1 to 2 bushels. For a plot 15x20, or 300 square feet, 1 quart is required for new, or 1 pint for renovating old lawns.

Prices, 20c per qt.; 90c per pk.; \$3.75 per bu. If by mail, add at the rate 5c per quart for postage.

† Valuation exceeds cost.

Note the above copy of page 56, Connecticut Agricultural Experiment Stations report on fertilizers, and note that valuation of our Home Mixture was \$2.50 per ton more than cost. See next page.

WOODRUFF'S HOME MIXED FERTILIZERS.

WE have mixed our own fertilizer for use on our extensive seed farms for the past few years and cannot too strongly recommend this method of buying fertilizers. The successful results we have obtained from using Woodruff's Home Mixture on our own farms has induced us to offer these goods at a reasonable price to the dozens of our customers who quickly see the extra value offered. The fertilizer we offer is in every respect the same as we use on our own extensive seed farms, is made from strictly high-grade chemicals and mixed by ourselves. We buy these chemicals in 50 to 100 ton lots for spot cash, and by so doing we are enabled to sell a strictly high-grade fertilizer at a much lower price than the same quality can be purchased from manufacturers of ready mixed fertilizers.

We Call Special Attention to Any Report of Conn. Agricultural Experiment Station, For Past 5 Years.

On the opposite page we reproduce from Connecticut Agricultural Experiment Stations report results of the first and best 17 fertilizers which were analyzed. There are 76 other Nitrogenous Superphosphates listed in the report, a copy of which will be mailed to any one who drops a card to the Station at New Haven, Conn. The difference between cost and valuation grows greater on each below the list on opposite page until the last one Station number 19035 shows cost \$30.00 per ton, valuation \$13.44 or in other words the purchaser of this last pays 106 5-10 per cent. more than he gets value for. It is wasteful and absurd to pay such a price for such poor value.

These results to the intelligent and careful planter speak in most convincing terms.

We shall continue to make the same high-grade formula, endeavoring as in the past to have our goods prove better than our guarantee.

Owing to increased cost of chemicals we are obliged to advance our price for 1908.

We offer the following formula :

Ammonia,	4%	} Spot cash price \$30.00 per ton, F. O. B., Orange, Ct.
Available Phos. Acid,	8%	
Potash,	8%	

The fertilizer is put up in sound second-hand bags and put F. O. B. Cars, Orange, Conn.

If you compare this formula at this price with any standard goods, you will be able to judge of the great saving in price by using our Home Mixture.

We offer following high grade chemicals F. O. B. cars, Orange, Conn., to those who wish to mix their own fertilizer, we recommend however, our customers to use our Home Mixture as our facilities for handling and mixing are such that we do it at a minimum cost.

Muriate of Potash in original sealed bags of 224 lbs. each, @ \$2.30 per 100 lbs.

Nitrate of Soda in original sealed bags, about 225 lbs. each, @ \$2.85 per 100 lbs.

Animal Tankage, guaranteed 7½% Ammonia, @ \$1.50 per 100 lbs.

Acid Phosphate, guaranteed, { 25% Bone Phosphate of Lime }
 { 14% Available Phosphoric Acid } @ 80c per 100 lbs.

All the above prices are for cash with order or before shipment. These offerings will not appeal to the planter who expects 8 months or 1 year's time in which to pay for his fertilizer but for the buyer who can pay cash we believe they will be attractive. We can almost always ship on the day order is received.
